

August Newsletter – 8/14/23

Good Afternoon Innovation Tech Families. This is a reminder that tomorrow will be our first Tuesday Conference Period day. Students will have slightly shorter classes on Tuesdays with a 35-minute Conference Period in the afternoon. The Conference Period will allow students to get extra tutoring, make up work/tests, and get extra help from their teachers. Students may be assigned a conference period by a teacher to correct an assignment or receive clarification on their work. Conference Period Tuesdays will begin, **Tuesday, August 15th**.

This is our inaugural year with a Conference Period. I'm looking forward to students taking full advantage of this opportunity to support their academic success. Students who remain on campus during the Conference Period time will need to be in a classroom being productive. If a student chooses not to attend conference period they must be picked up by 2:35 pm or they will be put into a classroom until dismissal. Students who choose to leave campus at 2:35pm on Tuesdays, they will not be permitted back on campus. Conference Period expectations and structure will be reviewed with students during class assemblies in the first week. Please refer to the attached bell schedule.
