

Happy Friday Innovation Tech Families.

We are in the home stretch for the end of the school year. Students who have failed one or more courses this school year need to make up their credits. The best way to make up credits is during Summer School. It is difficult for a student to make up credits during the regular school year.

Summer School will be offered on our campus June 2-29th. There are two sessions: June 2-15<sup>th</sup> and June 16-29<sup>th</sup>. Summer School classes start at 8am and end at 2pm. Breakfast and lunch will be available for all students. Students must attend class in person and will be taking the course online.

Students who received a D in their Math class or English class have the opportunity to take the class again for a grade replacement. Replacing a low grade improves the student's overall GPA.

There is no charge for Summer School. To enroll your student for Summer School, log into your ParentVUE account and follow the directions for enrollment. We will offer Summer School registration assistance on Monday, May 23<sup>rd</sup> and Tuesday, May 24<sup>th</sup> after school from 3:15-5:00pm in the Raytheon Event Center on campus.

If you are unsure which course your student needs to take, please contact Mr. Proctor, Mr. Gonzales, or myself.

Please reach out with any questions.  
We look forward to a successful Summer School.  
Have a wonderful weekend!
